

## Artwork Requirements Checklist

To ensure that your project is completed correctly and to your satisfaction, please thoroughly read and adhere to this requirements checklist **prior to sending artwork** to us. Please contact us if you have any additional questions.

### **Acceptable File Types**

Regardless of file-type, please send print-ready artwork files un-flattened, making the layers and colors available for editing if necessary.

- Adobe Illustrator
- Adobe Photoshop
- Adobe InDesign
- CorelDRAW

### **Acceptable Artwork Resolutions**

All artwork must be created at a resolution of 300dpi or greater.

### **Acceptable Color Settings & Bleeds**

All artwork must use CMYK color mode for maximum print-quality colors. Please also allow for a 1/8" bleed to allow for die-cutting purposes.

### **Artwork Submission Options**

Email – As print-ready artwork files are generally large in size, we request that our clients zip their files prior to sending them to us via email. If possible, please also include a proof of your print-ready artwork (PDF file format preferred).

Traditional Mail – If for any reason you would prefer to send your print-ready artwork files to us on a disc, please send them to the following mailing address. If possible, please also include a proof of your print-ready artwork (PDF file format preferred).
